

Steve Nachtigall

Steve works for the Red River College Students' Association as the Executive Director. A big part of his role is mentoring student leaders as they navigate their way through post-secondary education.

Steve has been involved in volleyball since he was young. He played in the Canada Summer Games and for the University of Manitoba Bisons. He was the assistant coach for the River East Collegiate varsity boys for two years and the head coach for two years in the early 2000's. Steve also played senior men's volleyball for 10 years.

Steve has coached hockey at various levels over the past 10 years. Steve's coaching philosophy is to develop each player's skill and ability, both individually and collectively, as they mature their playing position and knowledge of the game. A cohesive team is made up of individual players and coaches working positively together towards a common goal. He enforces respect for teammates, coaches, parents, ref's and opponents. He believes in clear communication and boundaries with players and parents. Steve endeavors to build each players confidence both on and off the court.

Steve is looking forward to getting back into coaching volleyball and working with the 17U Winman team.
