

Taylor Nault

Taylor is currently completing her final year of the Municipal Engineering Technology Program at Red River College. Taylor also has a Bachelor of Science from The University of Winnipeg, and her Health Care Aide Certificate.

When Taylor hasn't been busy studying, she finds time to be involved in the sport of volleyball, either as a coach, spectator, or player. This will be Taylor's first year as head coach, and she is excited for the new adventure that lies ahead as she joins the WinMan Volleyball Club community,

Taylor was an assistant coach at Westwood Collegiate for four seasons. In 2016, the team were WWAC Champions, and made it to the MHSAA Provincial Final Four. Over those four seasons, she had the opportunity to coach her younger sister, Jayda Nault, who will be joining her as an assistant coach this club season.

As a spectator, Taylor was lucky to have two younger siblings to cheer on and share a love of volleyball with. Her brother, Brady Nault, played five seasons with the Brandon Bobcats, and Jayda played at Queen's University. Numerous weekends were spent driving to Brandon or having viewing parties watching the games on the TV screen at home.

Today, Taylor continues to play in recreational adult leagues with her close friends. Her teammates being individuals that she met almost 15 years ago when they played together on their 14U club volleyball team.

Volleyball has had such a wonderful impact on Taylor's life, she hopes that she can share her passion for it with her team and inspire our young athletes to enjoy the sport to its fullest potential.
