

Jason Hurton

Growing up in rural Manitoba, Jason was involved in various sports throughout his youth. It was during his high school years that he developed a love of volleyball, capturing a bronze medal at provincials as well as the player's choice award at MHSAA provincials.

He attended Brandon University and University of Manitoba and after earning his Bachelor of Education, Jason embarked on a career in teaching, specializing in math, science and technology at St. Paul's High School.

For over fifteen years, Jason has also contributed to St. Paul's volleyball program, coaching both grade 9 and junior varsity teams. He has been fortunate to coach teams that have captured league championships as well as a JV provincial championship. Jason has also led the school's tech crew for over a decade, overseeing game film, video analysis and streaming of athletic events at the school.

Jason is a Trained Development Coach with Volleyball Canada and is looking forward fostering a love of volleyball in a fun and competitive environment with the WinMan club this year.
